Description

Carnauba wax, is also known as “the queen of waxes”, provides long-lasting shine to leather also ensuring waterproof protection, beeswax provides a high nutrition and flexibility to the leather. It is enriched with 18% carnauba wax and beeswax of all waxes. It prevents cracking and increase the life of the leather. It is suitable for shoes, bags and accessories. Thanks to its more than 90 available colors, including metallic and pearly colors, get the color that most closely resembles accessories or leather shoes. Due to its high-quality pigment content, the shoe cream offers great coverage.

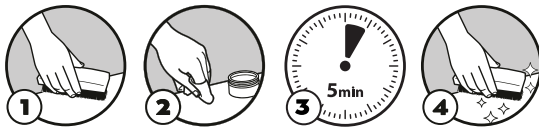

Characteristics

- It is available in over 90 colors. (See Tarrago Shoe Cream Color Chart - Page 3)

Presentation

| PACKAGE | BOX UNITS | BOX SIZES | BOX WEIGHT | PALLET UNITS | EAN CODE |
|---------------------------------|-----------|-----------------|------------|--------------|----------------------|
| Glass Jar 50 ml - 1.76 fl oz | 12 | 530 x 203 x 282 | 1,8 kg. | 5.040 | Depends on the color |

How to use

1. Remove dust from the surface.
2. Apply a small amount of cream with a shoe duster or brush, spread evenly.
3. Let dry for five minutes so that the wax can penetrate the leather.
4. Brush for immediate shine.

Tips

- The colors of the Tarrago Shoe Cream can be mixed with each other to get a new tone. This will not affect the stability of the product.
- To apply Tarrago Shoe Cream on leather soles, we recommend cleaning previously the soles with Tarrago Conditioner.
- It is recommended to close the product very well to prevent it from drying out.
- This shoe cream does not contain silicones.
- Do not use a dirty or a wet cloth, it could generate mold spores and contaminate the formula.
